RE: Upcoming Meeting Notice

The public is invited to an informational meeting on the Chain's Aquatic Invasive Species efforts

The Unified Lower Eagle River Chain of Lakes Commission (ULERCLC)
will host a public informational meeting on
Wednesday, November 18th, at 7:00 p.m.
at the Washington Town Hall
2301 Town Hall Road, Eagle River, WI

ERCLA members, lake stakeholders, property owners and interested community members are encouraged to attend and learn more about ongoing efforts to manage aquatic invasive species and protect the Eagle River Chain of Lakes.

The meeting will feature a presentation by lake ecologists from Onterra, LLC, the lake management consulting firm retained by the commission to implement the aquatic invasive species (AIS) management program on the Eagle River Chain.

The presentation will highlight:

- Results from the 2026 chainwide Eurasian Water Milfoil (EWM) survey
- Summarize the 2026 diver-assisted suction harvesting (DASH) efforts on Catfish Lake
- Provide an overview of the proposed 2027 management program for the Eagle River Chain

Following the presentation, attendees will have the opportunity to ask questions and discuss any aspect of the Aquatic Invasive Species (AIS) management program.

ERCLA works closely with the **Unified Lower Eagle River Chain of Lakes Commission**, a local, publicly-funded entity comprised of the City of Eagle River and the towns of Cloverland, Lincoln and Washington. The Commission applies for the DNR grants which fund the management of Aquatic Invasive Species, especially Eurasian Water Milfoil. ERCLA provides volunteers and funding assistance.
